| Transmission | Manual |
| Exterior Colour | Pentland Green |
| Previous Owners | N/A |
| Registration | LF05GVL |

Description

This stunning Aston Martin Vanquish S is offered by HWM Aston Martin. Finished in a traditional colour called Pentland Green with a bespoke beautifully crafted interior. This standout Vanquish S really must be seen and driven to be fully appreciated. Having covered over just 20000 miles it has a comprehensive main dealer service history with a strong record of invoice and receipts for the maintenance work that has been carried out throughout its life. The Aston Martin V12 Vanquish S debuted at the 2004 Paris Motor Show, with a number of subtle styling revisions over the standard Vanquish. The engine remained at 5.9 V12, but had power increased from 460 hp to 520 hp. Visual changes included new wheels, a slightly different nose shape, a new raised boot lid with a larger integrated spoiler incorporating the third high-level brake light (in the rear window on the original Vanquish), a Vanquish S badge on the boot lid (the original Vanquish had no rear model designation), and the addition of a small front splitter. One result of these changes was a reduction in the drag coefficient. The Vanquish S front and rear track measures 1,524 mm and 1,529 mm, respectively. A change in gear ratio enabled the S to reach a top speed of 200 mph.

The V12 Vanquish S also incorporated the features of the

optional Sports Dynamic Package from the standard Vanquish model, which included stiffer suspension, revised steering, and larger brakes – 378 mm (14.9 in) front discs with six-piston calipers and 330 mm (13.0 in) rear discs with four-piston calipers.

You can reserved this Vanquish S at our website for just £99
