Bodystyle	Coupe
Transmission	Automatic
Exterior Colour	Onyx Black
Previous Owners	N/A
Registration	LJ61FON

Description

HWM Aston Martin are thrilled to offer this fantastic example of the DBS, built in limited numbers. This car is fully prepared to Aston Martin Timeless standards by our trained technicians and is supplied with a 12 month Aston Martin Warranty and MOT. Finished externally in Onyx Black Metallic Paint with a beautiful interior combination of Obsidian Black Leather coupled with a striking Silver Stitch. This example has covered just 20000 miles throughout its life and has wanted for nothing during its previous ownership. Sat on the stunning 10 Spoke Sport Diamond Turned Silver Wheels with Black Brake Calipers, this classic yet understated interpretation of DBS is stunning from just about every angle. The DBS uses the Aston Martin VH platform. Due to the structure, 85% of the weight of the car is kept between the wheelbase, which results in increased handling, responsiveness and feel during tight cornering. Aston Martin also developed an Adaptive Damping System, or ADS, which alters the suspension in order for the car to cope with the driver's desired driving mode according to the road/weather conditions. When turned on, the ADS automatically alters the suspension settings to ensure the driver has high levels of control at all times. Apart from the suspension getting stiffer, throttle and braking response is increased and steering is sharpened. To reduce weight,

Aston Martin made extensive use of carbon fibre throughout the car. The bonnet, the boot, the front wings, the door opening surrounds and the boot compartment are all made of carbon fibre. The carpets are also made by special thin layers made from carbon fibre. The roof and the doors are made of aluminium. The result is a 30 kg weight reduction as compared to the DB9. The DBS is also fitted with a carbon fibre splitter at the front wings to increase handling and a carbon fibre rear diffuser to increase high-speed stability along with Carbon Ceramic Brakes. This DBS Coupe can be reserved at www.hwmastonmartin.co.uk for just £99
