Description

HWM Aston Martin are excited to bring to market this stunning 2020 Aston Martin DBS V12 BiTurbo Superleggera, finished in Skyfall Silver. This DBS is a rare find indeed, having covered only 7,250 miles since new and benefiting from the peace of mind that comes with being Aston Martin manufacturer approved with a Full Aston Martin Service History. This high performance sports GT Aston is powered by the 5.2L twin turbo petrol engine which enjoys a whopping 715bhp. Inside, the cabin is finished with Q Satin 2x2 Carbon Twill trim inlay and features contrast colour welting for a refined aesthetic. Comfort is prioritised with heated and ventilated seating, while the exterior is enhanced by gloss black door mirror caps and a wind deflector for open top driving.

The performance capabilities of this model are exceptional, demonstrated by its ability to accelerate from 0 to 62mph in just 3.6 seconds. This rapid acceleration, combined with the sophisticated engineering of the V12 engine, sets this vehicle apart from many others in its class. The combination of low mileage and the manufacturer approved status provides a

level of assurance that is often difficult to find in high performance cars, making this an excellent choice for those seeking a blend of power, luxury, and reliability.

New Zealand Avenue, Walton-on-Thames, Surrey, KT12 1AT
