Description

Few Aston Martins possess the presence, drama and enduring appeal of the DBS Volante. Combining elegant open-top grand touring with the character of a hand-built V12, it remains one of the most desirable Aston Martins of the modern era.

HWM Aston Martin is delighted to present this exceptional 2010 DBS Volante, beautifully finished in iconic Quantum Silver and having covered just 29,350 miles. Its muscular proportions, beautifully resolved detailing and purposeful stance create an unmistakable road presence, while the electrically operated fabric roof allows the magnificent V12 soundtrack to be enjoyed to the full.

At its heart is Aston Martin’s naturally aspirated 5.9-litre V12, producing 510bhp and driving the rear wheels through the six-speed Touchtronic II automatic transmission. With a top speed of 190mph, the DBS delivers effortless performance and immense character, combining genuine supercar pace with the composure and refinement expected of a flagship grand tourer.

Lightweight carbon-fibre bodywork elements, adaptive damping and powerful carbon-ceramic brakes underline the car’s sporting intent. Inside, the beautifully handcrafted cabin features electrically adjustable heated Sports seats with memory, satellite navigation, Bluetooth telephone preparation, cruise control and automatic climate control. Front and rear parking sensors, power-folding mirrors and a wind deflector add welcome everyday usability.

Closely associated with the James Bond era of Casino Royale and Quantum of Solace, the DBS has become a modern Aston

Martin icon. This elegant Quantum Silver Volante offers a compelling opportunity to enjoy one of the marque's finest naturally aspirated V12 models.

Prepared and presented by HWM Aston Martin, the world's longest-established Aston Martin dealership. 12m Aston Martin Warranty and 12m MOT.
