Description

HWM Aston Martin is delighted to offer this exceptional 2026 DB12 S, finished in Q Ion Blue with a duotone full-leather interior. With just 6,000 miles, this VAT-qualifying example combines formidable performance with an extraordinary carbon-fibre specification.

DB12 created a new category as the world's first Super Tourer; the S elevates that formula as the halo model of Aston Martin's legendary DB bloodline. It also continues a high-performance 'S' tradition dating to the DB3S of 1953. Its hand-built 4.0-litre twin-turbo V8 produces 700PS and 800Nm through a faster-shifting eight-speed automatic transmission. It accelerates from 0–60mph in 3.4 seconds and reaches 202mph, while S-specific chassis calibration and standard Carbon Ceramic Brakes deliver exceptional agility and control.

Q Ion Blue is dramatically complemented by Gloss Black Tinted 2x2 Twill Carbon Fibre Upper and Lower Exterior Packs, a matching carbon-fibre roof, Gloss Black grille and black Aston Martin Wings and script. Textured Titanium 21-inch Evo wheels complete its purposeful appearance.

Inside, the duotone leather cabin is enriched by the 2x2 Twill Satin Carbon Fibre Interior Package. Ventilated seats and a heated Sports steering wheel provide year-round comfort, while Bowers & Wilkins audio, privacy glass and Aston Martin's advanced infotainment make this a true long-distance Super Tourer.

Offered by HWM, the world's oldest Aston Martin dealership, representing the marque since 1951. This DB12 S is Aston Martin Approved and supplied with a 12-month unlimited-

mileage warranty, independently certified history and mileage, and preparation to Aston Martin's exacting mechanical and aesthetic standards by factory-trained specialists.

A rare opportunity to acquire a highly specified DB12 S in one of Aston Martin's most captivating colours. We would be delighted to provide a detailed video walkaround or welcome you to view the car in Walton-on-Thames. Reserve it online today for £99.
