Description

HWM Aston Martin is delighted to offer this outstanding 2026 DBX S, finished in striking Plasma Blue and showing just 3,101 miles. Combining flagship performance with an exceptional lightweight specification, this is a rare opportunity to own one of Aston Martin's most focused SUVs.

Introduced in 2025 as the new DBX flagship, DBX S continues Aston Martin's tradition of using the 'S' designation for lighter, more powerful and more dynamic models. Its enhanced 4.0-litre twin-turbocharged V8 uses turbo technology transferred from the Valhalla supercar to produce 727PS (717bhp) and 900Nm. It reaches 60mph in just 3.1 seconds and a maximum speed of 193mph—genuine supercar performance.

This example celebrates everything that makes DBX S special. The Gloss 2x2 Twill Carbon-Fibre roof removes weight from the highest point of the car, while rare 23-inch magnesium wheels in Satin Titanium Grey reduce unsprung mass and sharpen response. Grey brake calipers, the lightweight mesh grille and privacy glass complete its purposeful appearance.

Inside, the Duotone S Leather package is complemented by sculpted Aston Martin Wings seat detailing, a heated steering wheel and ventilated seating for both front and rear passengers. The Bowers & Wilkins audio system delivers exceptional sound, balancing performance focus with long-distance luxury.

Offered by HWM, the world's oldest Aston Martin dealership, representing the marque since 1951. This DBX S is Aston Martin Approved and supplied with a minimum 12-month unlimited-mileage warranty, roadside assistance, independently

certified history and mileage, and preparation by factory-trained technicians.

A DBX S with this colour and lightweight specification is a genuinely special proposition. Watch our full video walkaround, reserve it online now for a fully refundable £99, or contact HWM Aston Martin today to arrange a viewing before it is secured.
